**MANAGEMENT**

## KEY FACTS

In 2021 MSc ranked in the top 25 Finance Quant Master in the World

**Risk.net**

The MSc offers its prospective students an advanced education in finance, banking, financial accounting, insurance and quantitative risk management.

The MSc response to industry's strong demand in experts with quantitative expertise in risk management, finance, insurance and their interface

The MSc is a combination of economic theory for finance with mathematical methods (probability theory, statistics, computational methods) to quantify risk arising from, but not limited to, financial, economic and insurance applications

Strong basis in academic theory is crucial for long-term success, however, theory is symbiotic with application: the MSc mix theory and practice, academic lectures and interaction with finance practitioners and empirical sessions

# ADMISSIONS

Prospective students must have:

- a I level degree in:
  - Economics/Business,
  - Maths,
  - Computer Science,
  - Engineering,
  - Statistics,
  - Physics
- B2 or higher level English certificate

For the a.y. 2022-23

## - **Early Submission**

15/03/2022 deadline submission application for assessment evaluation

30/04/2022 admitted students list

## - **Regular Submission**

31/05/2022 deadline submission application for assessment evaluation

12/07/2022 admitted students list

## - **Late Submission (only for EU students)**

**31/10/2022** deadline submission application (Italian NULLAOSTA) for assessment evaluation

**COMMON TRACK  
66 ECTS**

| Course   | SSD       | ECTS | compulsory |

## ALUMNI NETWORK

Ex FIRM Alumni in top jobs and relevant positions in Italy and abroad, created an international network that has brought employment opportunities directly to our current students as former graduates and their employers look to hire the very best.

The MSc encourages all alums to connect with them and to keep us updated as their careers progress.
