Leadership at IBU

Feridun Hamdullahpur

Chancellor, Member of the Order of Canada
recognized for Visionary Leadership in Education

As inaugural Chancellor, I am pleased to see the passion for Innovation and global education that is on display at IBU. I am particularly excited about the entrepreneurial spirit throughout IBU's administration, faculty, staff and students as IBU pursues its ambitious mission to produce the next generation of international business leaders, making a difference both in local and global communities.

Dr. Asima Vezina

President and Vice Chancellor

Our unique value proposition of flexible, accessible, "personalized learning" creates a tailored life-span approach from application to graduation and beyond.

Our learning environments are responsive and focused on individualized learning so that all students have the opportunity to succeed. Each learner will have a close faculty-student experience, class-sizes of 30 students, dedicated student and career advisors, industry mentors and a curriculum that is guided by the skills, learning outcomes and competencies identified by employers.

Dr. István Imre

Executive Dean & Vice President

In our quest to create job-ready graduates, we collaborate with influential academics, business leaders and advisors. Their expertise and guidance shape our curriculum, ensuring that our graduates are well-prepared to meet the demands of the global workforce. We are committed to have our graduates possess the skills, talent and knowledge required to thrive in today's rapidly changing business landscape.

Fast Track Your Business Career

with Optimized Skills

As an independent institution, IBU responds to the needs of employers to develop the next generation of agile, future-proofed executives with sustainability competence and innovative ideas.

Theoretical Knowledge & Practical Skill

IBU integrates a unique blend of theoretical and practical management skills into every course, staying current with the latest tools, knowledge, and industry trends through strong connections to the business world. You will gain essential skills and knowledge defined by the industry, preparing you to make a real impact in the business world of the future.

Enhanced Awareness of Diversity

We live up to our name by offering an MBA executive program that is truly global. Throughout your time at IBU, you'll be exposed to a wealth of cross-cultural knowledge and perspectives that will help you navigate the complex and ever-changing global business landscape.

Ethics & Corporate Social Responsibility

Our comprehensive course on Regulatory Environments, Ethics, and CSR covers the fundamental principles of ethics and corporate responsibility. You will examine these practices in the context of negotiation, strategy, and marketing to develop a holistic understanding of the subject.

Business Planning

We provide our students with diverse capstone options to suit your career aspirations. For example, you can develop a business plan for an entrepreneurial venture. Our faculty and external reviewers provide guidance and mentorship throughout the process, allowing you to gain practical skills and knowledge in business and entrepreneurship.

Digital Transformation

The ability to integrate technology and digital Innovation is essential for business leaders. You will use current tools and strategies to design and develop information systems to apply in a business context.

Work with Businesses Globally on Real-World Challenges

At International Business University, we're committed to preparing our students for a lifetime of positive impact and success. Along with traditional assessments and class assignments, our MBA program incorporates real world case studies, consulting projects, and capstone opportunities to allow students to apply their knowledge in practical settings.

As an independent institution, IBU responds to the needs of employers developing the next generation of future-proofed leaders who are agile with sustainability competence and innovative ideas. Our MBA program is designed to nurture executives with a global entrepreneurial mindset and the ability to develop integrated technological solutions for business organizations from idea generation to execution.

Wharton INTERACTIVE

Featuring Simulations by Wharton Interactive

Our courses have adopted a case study approach for students to learn about the latest real-life business challenges and implications for business managers, including current topics such as ESG investing, indigenous business and digital transformation. Harvard Business Publishing and Ivey Publishing produce these contemporary international business cases.

Students enrolled in this program are entitled to **FREE ASSOCIATE MEMBERSHIP** with CIM | Chartered Managers Canada and have immediate access to all association benefits. You simply need to complete the online application form at www.cim.ca/student

Students graduating from this program will have met the academic requirements equivalent to the Chartered Management Program (CMP) framework. The CMP can lead to the Certified in Management (C.I.M.®) and Chartered Manager (C.Mgr.®) professional designations.

Certified in Management (C.I.M.®)

Graduates of an NCMA Professionally Accredited Program are eligible to obtain the C.I.M.® designation after completing the online Management Aptitude Evaluation (MAE).

Chartered Manager (C.Mgr.®)

Graduates with the C.I.M.® designation and an undergraduate or graduate degree in any discipline, supplemented with 48 months of professional-level management experience, are eligible to obtain the C.Mgr.® designation.

MBA in Technology, Innovation, and Entrepreneurship

Our MBA program with a carefully balanced combination of Technology, Innovation, and Entrepreneurship is designed to nurture executives with a global entrepreneurial mindset and the ability to develop integrated technological solutions for business organizations from idea generation to execution.

MASTERING FUNDAMENTALS

During your first semester, you will dive into the core principles of business that will serve as the foundation for your future success. In this initial term, you will build up your foundational knowledge of doing business in a contemporary setting.

Financial Management will equip you with the necessary financial knowledge and skills to navigate the complex world of business finance. Business Analytics will hone your ability to analyze big data and make informed business decisions. Organizational Behavior: Leading in a Diverse Environment will enhance your ability to lead and thrive within an inclusive and diverse workplace. Marketing and Social Media will introduce you to the latest knowledge about marketing and promotion tactics necessary to build a strong brand presence in the digital age.

DRIVING CHANGES

As you move into the second term, you will focus on implementing effective changes within organizations to foster innovation. Communication skills will teach you effective ways to convey your message and influence others. Negotiation skills will enable you to navigate complex business deals and resolve conflicts. Strategy will provide you with the innovative approaches and techniques to formulate and implement successful business plans. Information technology and digital transformation will explore the role of technology in driving innovation and growth.

SPECIALIZATIONS IN SKILLS

Following the completion of the first two semesters, you will have the opportunity to specialize in your chosen field. Whether it is entrepreneurship, global business venturing, financial analytics, information systems management, or a general stream for a broader perspective. You can tailor your studies to align with your career goals and passions. This pathway will allow you to delve deeper into your chosen specialization to gain advanced knowledge and expertise as an agile business executive.

Finally, you will culminate your MBA journey through the completion of a capstone project. This project will challenge you to apply everything you have learned throughout your studies to solve a real-world business problem. It will be a culmination of your interdisciplinary knowledge and practical skills, demonstrating your readiness to make a meaningful and positive impact on the business world.

Who Should Apply?

Our MBA program is designed for a diverse group of individuals, both from Canada and abroad, who are passionate about furthering their education, advancing their careers, or growing their businesses:

- **EXECUTIVES AND MANAGERS**

CAREER PATHS

Corporate Management & Leadership

Aim for executive positions where you can transform the future of various industries through strategic decision-making with a broad corporate perspective combined with a view of disruption and entrepreneurial edge.

Technology Management & Strategy

Drive technological Innovation by using your skills to help companies develop and implement technology strategies and optimize technology within your organization.

Investment Banking & Private Equity

Shape the future of finance by driving growth and helping organizations raise capital, make strategic acquisitions, and structure complex financial transactions.

Healthcare Management & Administration

Excel in a management role in hospitals, clinics, and other healthcare organizations by using your business skills to improve efficiency while bettering patient outcomes.

Operations & Supply Chain Management

Optimize efficiency by improving operations and supply chain management in manufacturing, logistics, and related industries.

Real Estate Development & Management

Our MBA program positions you to leverage your business acumen and knowledge in developing and managing properties and real estate projects.

Non-Governmental Organizations (NGOs)

Work in areas such as project management and development, fundraising, or operations to assist global issues (human rights, sustainable development etc.).

Non-Profit Management & Public Administration

Make a tangible impact on social and public issues by applying your knowledge to management and leadership roles in the non-profit and public sectors.

For the Next Generation of Business Leaders

Consulting Firms

Support clients with market entry strategies, international expansion, cross-cultural management, or strategic planning.

Entrepreneurship

Join a scaling company or start your own firm with the industry knowledge and practical skills needed to develop an effective business plan, secure funding, and manage operations to create a business model for success.

Multinational Corporations

Work in various departments such as international business development, global marketing, supply chain management, or strategic planning, focusing on expanding a company's international markets and managing global operations.

International Organizations

Work for organizations such as The United Nations, World Bank or International Monetary Fund to contribute to global initiatives, policymaking, and development projects.

Management Consultant

Offer strategic advice and solutions to businesses by analyzing organizational structures, methods, and data to identify areas of improvement and optimize performance.

Government Agencies

Create economic policies, negotiate international agreements, or focus on international trade to represent a government's interest in global platforms.

Financial Analyst

Analyze financial data, evaluate investment opportunities, and provide guidance for financial planning and decision-making, while contributing to budgeting, forecasting and financial report processes.

Investment Analyst

Collect, analyze, and interpret complex data sets to extract insights, identify patterns, and provide data-driven recommendations to support business decision-making.

Business Analyst

Collaborate with stakeholders to conduct research, identify requirements, and analyze data to bridge the gap between business objectives and analytical insights.

Data Scientist

Implement statistical models and use predictive analytics to derive valuable information from data sets, and help organizations optimize efficiency and drive innovation.

Admission Requirements

Domestic and international students, including current Ontario university graduates as well as out-of-province Canadian students, interested in applying to IBU may do so directly by completing an online application form. The specific requirements for each type of applicant are outlined in the table below.

| Direct Entry Admission Requirements Student | Requirements for MBA |
|---|---|
| Undergraduate Degree | 2 years of work experience B+ GPA or Equivalent Additional courses may be required* |

This is a recommended GPA for entrance and will be reviewed on a case-by-case basis in conjunction with work experience and evidence of competencies.

* If you do not hold a Bachelor of Commerce (BCom), Bachelor of Business Administration (BBA), or equivalent business degree, you may be required to complete up to two bridging courses, Quantitative Methods for Business and Introduction to Business, offered by IBU or equivalent during your semester 1 of the MBA program of study.

International Students

Applicants whose first language is not English and who have completed fewer than four consecutive years of study in an English-speaking country must provide evidence of their English language proficiency by providing an official English language proficiency certificate (i.e; TOEFL, IELTS or Canadian Academic English Language Assessment-CAEL). International students are required to have a valid study permit.

Mature Students:

Mature students may apply directly to the program and their applications will be considered individually.

In some instances, they will need to complete up to two Bridging Courses.

IBU's admission to Graduate Studies Policy defines the minimum requirements an applicant must fulfill.

Admission is competitive and eligibility to apply does not guarantee admission.

Applicants who do not meet minimum admission requirements and do not have an undergraduate degree yet show potential for success in graduate level study will be considered on a case-by-case basis.

Extensive work experience and volunteer experience at managerial level is expected.

Applicants must meet the standard admission requirements of proof of proficiency in English, GMAT Score 560 or more and may be assessed for experience and performance in a number of education/training courses.

Applicants must provide all application materials and a 3 to 5 page essay outlining their desire to attend the MBA program.

Transfer Students:

Applicants may apply for admission based on previous studies completed in good standing at an accredited postsecondary university.

Applicants must meet the standard admission requirements as well as normally minimum average of B GPA or equivalent and GMAT score of 560 or more.

Submission of official transcripts from the transferring program and postsecondary university is required.

Proof of proficiency in English may be required on a case-by-case basis.
