### Please note:

The courses from the list above are courses from four different programs and six different levels. Therefore, it can happen that some of the courses overlap time-wise.

The timetable for the following semester is published only four weeks prior to the beginning of semester so that there might occur some minor changes in your planned courses or your learning agreement.

But the choice is big enough and you can change and switch courses until end of April/beginning of May respectively until end of October/beginning of November.
